AT YOUR  
CIGARETTE TIP

The LEKTROLITE and GLOLITE flameless lighters presented in this booklet represent a great advance over previous lighters of this type.

Unfailingly, with just a puff or two, without spark or flame, they will function indoors and outdoors with equal efficiency.

Flameless lighters are styled in a variety of models to fit every purse—every taste. Some operate from three to six months without refilling, an advantage no other type of lighter can offer.

Women find them particularly desirable because they are odorless, and do not destroy the fragrance of the perfumes in their hand bags.

Men like them because they are compact, wind-proof . . . mystifying.

## STAINLESS SMOKING

Unightly yellow stains on fingers and teeth diminish with consistent use of a LEKTROLITE or GLOLITE. These stains do not come from nicotine, as is popularly supposed, but from tobacco tars which only the intense heat of a flame can distill. When you use a "cool lighting flameless lighter," these tobacco tars remain inert.

## IDEAL GIFTS

For birthdays, anniversaries, graduations, prizes, or any occasion that calls for a remembrance or a "thank-you." Better still, give one to yourself. It will prove one of your happiest acquisitions.

## FLUID

These lighters operate with LEKTROLITE fluid *only*. Substitutions will damage heating elements and invalidate guarantee. At leading stores everywhere, 25c a bottle. Lektrolite fluid is permitted in the mails in single bottles.

## GUARANTEE

Every lighter featured in this booklet is guaranteed for one year. If it fails to give satisfaction for any reason whatsoever, it will be repaired or replaced upon return to us with 25c to cover handling.

*The Midget* is available in black, red, green, gray, white and yellow, in solids or in combinations. Midget is packed with a bottle of fluid in an attractive gift box—\$1.25.

The *GLOLITE*, twice as large and attractively banded with a bright chrome trim, at \$2.50.

*Facsimile Signatures can be etched on either of these lighters for 25c additional. This individualizes the gift and enhances its value manifold.*

**GLOLITE**

Functionally the same as Glolite, this lighter is furnished in an all-metal casing with baked enamel finishes of red, green, black, or engine-turned rhodium. It is packaged in a presentation box with small vial of fluid. An elegant gift for important occasions . . . . . \$5.00

*Gold Plate, Sterling, and Solid Gold casings can be made up to order at very moderate increase in cost.*

## LEKTRO-SHAVER

Here is the razor which is bringing shaving comfort and satisfaction to thousands of users every day.

*So perfect you  
can shave  
Blindfolded!*

The amazing results attained are due to the master cutter, which took seven years and \$200,000 to perfect. This scientifically-rounded cutter is almost human in its two-way action. Rotating left to right . . . as it glides forward and backward . . . it mechanically produces the stroke of the master barber.

**NO LATHER, WATER, BLADE OR BRUSH!**

You simply plug in the Lektro-Shaver, and shave. No scraping, no irritation of the skin; no nicks, no cuts. No ridge or hollow the Packard doesn't deftly reach, lopping off each hair gently and closely, and with a massaging effect which makes you regret it's all over so quickly!

The cost of the Packard is \$15.00. You'll agree it's worth it, every time you use it . . . year in and year out. Manufactured by Dictograph Products Co., Inc., precision manufacturers for 33 years.

**SERVICE  
EVERYWHERE:**  
For information,  
inspection or service,  
phone the  
nearest Dictograph  
or Acousticon office,  
listed in the  
telephone directories  
in all principal cities.

**TO THE MILLIONS WHO DO NOT  
BELIEVE IN ELECTRIC SHAVING,**

*We offer these spontaneous endorsements which  
have been selected at random from over 5000  
enthusiastic letters we have received to date*

*Erie, Penn.*

April 9, 1936

"Fine! Cuts my heavy beard and cures my tender face."

W. C.

*Los Angeles, Calif.*

April 2, 1936

"Have used it four times and wouldn't take a fortune for my Packard LEKTRO-SHAVER. Can't wait till I shave again. Face feels fine—sore face has gone. No after effects."

V. J. K.

*Los Angeles, Calif.*

March 25, 1936

"My face says: 'The smoothest, fastest and cleanest shave—thanks to LEKTRO-SHAVER.'"

B. P. M.
